

In Geography we will be asking...

- What problems do humans create for our environments?
- What is recycling?
- What kinds of recycling do you do at home?
- What happens to recycled rubbish?
- Why is plastic such a problem in our ocean and seas?
- What happens to all our plastic bottles after use?
- What can we do to help?

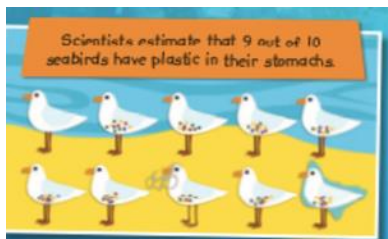

I already know...

Key Words

- natural
- resource
- pollution
- human
- settlement
- waste
- recycle
- Kenya
- West Africa
- climate
- global
- deforestation

I have learned:

Topic Review

In Science we will be asking...

Separating Materials

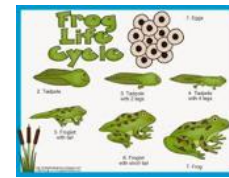

- How would you separate a mixture of sugar, rice, sand and marbles?
- How is recycling separated?

Life Cycles

- What is a life cycle?
- Do all living things have babies?
- What is metamorphosis?
- Can a frog breath underwater?
- How do plants reproduce?

I already know...

I have learned:

Key Words

- mixture
- filter
- sieve
- substance
- magnetic
- properties
- life cycle
- reproduction
- mammal
- amphibian
- reptile
- bird
- insect

Eco Warriors

In Art we will be asking...

- What is a 'junk model'?
- What is the difference between a sculpture and a picture?
- Do you like your sculpture?
- What makes a sculpture an artwork rather than just a model?

I already know...

I have learned:

Key Words

- junk
- sculpture
- sculptor
- artist
- join
- project
- hinge
- flap
- tab
- attach
- technique
- sketch
